

Professional Brake Cleaner Spray

Designed to counteract grease and oil.

Removes all oily and fatty stains from several surfaces and materials.

It is the perfect cleaning agent for the entire industry, in mechanical art, for repairs and assembly, cars, home and hobby.

Cleans all objects made of metal, glass, ceramic and most plastics. (thermoplastics, such as PVC, Plexiglas, polystyrene and simple coats of laqueur are being solved.)

- 360° valve – allows full depletion of the content
- Quality tested by TÜV

Possible use:

- Brakes (drum brakes, disk brakes, brake lining, brake pads, cylinders and bushings)
- Clutch (clutch lining and clutch components)
- Engine components (carburetor, fuel pump, oil pump, gear box)
- Removes water
- No residues
