

LPG/CNG Valve Saver Additiv

Complete valve protection for LPG/CNG powered vehicles.

Unlike other additives the range of applications of V-LUBE LPG VALVE SAVER was designed to suit the requirements of gas powered vehicles.

The gas injected into the combustion chamber is, unlike in the case of petrol powered vehicles, dry "and" does not offer the same protection which is normally granted by additives added to the petrol. This may result in higher load load burdened on the valves and valve seats.

V-LUBE LPG VALVE SAVER meets the demands and problems typical for LPG/CNG powered vehicles offering effective protection at a reasonable price.

- Protects the valves against increased wearing caused by gas.
- Offers optimum protection at a low price.
- Was designed exactly for LPG powered vehicles.
- Compatible with all of the autogas systems available on the market.
- Quality controlled by TÜV.
- Effectiveness confirmed by independent research.

Available as:

0,5 Liter Valve Saver Additiv

1 Liter Valve Saver Additiv

5 Liter Valve Saver Additiv
